## Chairman's Notes

An encouraging number of members and visitors came to the Open Evening. We welcomed two new members and introduced a new entrant to the teaching profession to the art of wood turning.

We move forwards to the summer season of shows. Time to put your thinking caps on, get your turning tools out and produce items for sale on the club stand. Small items such as mushrooms, spinning tops and garden dibbers usually go well but sales of larger items on commission can be made. An opportunity to clear your workshop shelves and recoup at least some return for your work. The usual terms apply, a percentage to the show if required and a percentage, normally 10% to the club for our funds.

### Volunteer Needed

Last month, I published the following to which I have received no response. Am I to assume that there is no interest?

“Those members of the club who visited the recent Axminster “Ten Turners Turning” weekend could not fail to have been impressed by the clarity of the camera/flat screen television set-up used at the demonstrations.

We have been looking at ways of improving the visual side of our demonstrations and this is one way forward. We are investigating the additional storage that would be required at the Village Hall. The cost of the equipment would be in excess of £500.

Some members have bemoaned the fact that we do not use a raffle on club nights to raise funds. We could do this if there was a demand and if a volunteer came forward to organise prizes and run it on each night.

Two questions for you:

1. Do you want a raffle?
2. Would you be prepared to organise it?

Answers to me at [chairman@mswa.co.uk](mailto:chairman@mswa.co.uk) or by phone.”

## Editor's Scribblings

Wood turning is a relatively safe hobby but there are inherent risks. One that I would not have previously considered was that of acquiring a splinter in a thumb, then it becoming infected, requiring a visit to the local A & E Department on a Saturday afternoon. An initial comment that "we do not those here now because we have a specialised clinic on the other side of the city" caused me even more worry because we were holding tickets for a flight to Turkey early on the Monday morning. My concern was noted and a junior surgeon took out a Swann-Morton scalpel (the same as my wife uses for marquetry!), made an incision, swabbed it out and called for a dressing to be applied. I left for Turkey with a hand bandaged up such that it looked as though I was about to tackle a 15-round boxing match. This certainly caused comment when I met the rest of the party in Dalaman. Fortunately, all was well and the dressing came off early in the week.

I usually look for evidence of wood turning in the local markets. Surprisingly, the only turned objects found were a range of spinning tops. However one of the local attractions is the gulets or motor yachts that offer cruises along the Mediterranean shore. These are not built in specialised boat yards but wherever there is some available space, even several hundred yards from the sea. Launching of what might be quite large 50-50ft long boats then requires the use of all the local farm tractors to drag the completed hull over rollers to the water.

Equipment in the yards is rudimentary, to say the least. A large band saw usually figures, with other power tools also employed. Health and Safety definitely does not rule here!

## Turning tips

This section is for any tips or advice you would like to pass on to other members. It doesn't matter what it is, if you discovered something you found useful, that you think may benefit others, please pass it on.

## Useful websites and suppliers

There is a lot of information available on the internet but some is better than others. If you come across any useful sites, please let me know and I will publish them here.

A tree surgeon near Stafford has several tonnes of small diameter yew logs for sale.

Rob Keyzor Tree Surgeons can be contacted at 01785 284088 (Ask for Jack) or through the website [www.robkeyzor.co.uk](http://www.robkeyzor.co.uk).

Steve is a member of Coombe Abbey Turners and has a massive stock of timber which he is happy to sell to turners and woodworkers. The timber consists mostly of locally sourced native hardwoods, planked and kiln dried, and is available at great prices; some really lovely stuff. Steve lives in Sapcote in Leicestershire, not too far away, and close enough to Axminster in Nuneaton for a joint visit! Steve can be contacted on 01455 273894, and his website is [www.woodcharm.co.uk](http://www.woodcharm.co.uk)

## Questions and answers

This section is an opportunity for members to ask questions for other members to answer, primarily about wood-turning but I see no reason why this couldn't be extended further. There is a lot of knowledge in the club on many subjects and this should be an easy way to get answers.

## Items for sale or wanted

If you have any items for sale, or if you are trying to find something, send me the details and I will put it in the next issue.

### Custom Toolrests – David Fields

David's grandson is able to make tool-rests, similar to the Robert Sorby system, out of round steel bar. These can be tailored to suit your requirements i.e. tool-post stem and length of the actual tool-rest. At the moment he is only doing straight tool-rests but bowl rests may be feasible in the future.

And if you have a Record lathe and do small spindles, he has developed a cranked tool-post, allowing the tool-rest to get close to the work, without the banjo dropping off the front bed bar.

If you would like to see one, or want to discuss your requirements, please have a chat with David on 01283 229072

### Carnauba wax polishes – Paul Bellamy

Following the favourable reaction to the polishing kits Paul started earlier this year, he has established a supply of carnauba wax flakes. These can be used to make your own 'sticks' or mixed with other components to make a range of polishes. He is selling these in 250g bags but could do larger quantities if you need it. He also has some ready-made wax blocks, comprising 60% beeswax/ 40% carnauba. These are softer than most 'wood-turning sticks' but he prefers this as it doesn't score your work.

He also has more of his 'Buffing kits', similar to Chestnut's system. For more details, e-mail him at [paul.bellamy@mswa.co.uk](mailto:paul.bellamy@mswa.co.uk)
